

ALAA SHAHEEN

Ui/ Ux Designer and Front End Dev

Email

desinger.alaa1@gmail.com

Address

Cologne , Germany

About Me

With hands-on experience in web, mobile, and SaaS projects, I combine creativity and technical precision to transform complex ideas into simple, accessible interfaces. Skilled in UI/UX design, responsive development, and design systems, I aim to bridge the gap between design and code—delivering products that are both functional and visually engaging.

Experience

Volunteer UX/UI Designer & Front-End Developer Ferment-Freude

2026 (Jan 10 – Jun 10)

- Collaborated with the team on the rebranding of the company website, improving the overall visual identity and user experience.
- Designed modern, user-centered UI layouts and responsive components using Figma.
- Created wireframes, user flows, and interactive prototypes to refine the user journey.
- Translated UI designs into a functional front-end using React.
- Ensured responsiveness and consistency across different devices and screen sizes.
- Improved usability, accessibility, and visual consistency of the website.
- Participated in feedback sessions and iterated on designs based on team input.

WEB DESIGN WEITERBILDUNG

2024 – 2025

- Hands-on experience in Figma for UI/UX design and prototyping.
- Developing responsive websites using HTML, CSS, and JavaScript.
- Learning modern Frontend development principles (e.g., Flexbox, Grid, Mobile First).
- Creating interactive websites using Webflow (no-code/low-code tools).
- Understanding user experience (UX) and visual design principles.
- Working on real-world projects and design systems.
- Collaborating in team-based design and development workflows.
- Building a personal design/development portfolio.

FREELANCE WEB DEVELOPER

2016 – 2020

- Developed and maintained a range of web applications and components using TypeScript, .NET, C#, JavaScript, and Bootstrap.
- Worked on both client and personal projects, handling everything from front-end development to basic back-end tasks.
- Focused on building clean, responsive UIs and improving the overall user experience across different platforms and devices.
- Contributed to the design and implementation of front-end features, ensuring consistency and usability.
